## WORK EXPERIENCE

### Fullstack Developer

August 2023 - Present

#### Indieneer | Portugal, Remote

Game Search Engine startup. Focusing on developing the frontend using Next.js 13 and the backend Python, Flask. My responsibilities also include integrating key services like Auth0 for user authentication and Elasticsearch for robust search functionality, ensuring the security and efficiency of our platform.

### System Administrator

August 2021 - February, 2022

#### State Pharmacy Service I Kyiv, Ukraine

Upgrading, repairing, and preventive maintenance on servers, desktops, printers, and other equipment. Assist internal users experiencing operational, hardware, or network connectivity problems with their computer systems.
